

I address this thank you letter to the 'The Living alternatives for Developmentally Disabled' committee for giving me the funds I need to pursue my continued education. I intend to strive for success through my college experience and to not forget your kindness that was presented to me this day. My burning passion to grow and develop my skills in the health profession will assist me to become a compassionate and loving person. There are people in the world that weren't as lucky as me today. This doesn't mean I am higher placed than their minority, rather, I have been given the opportunity from you as the extra leap I need to pursue the career I seek to help those of the minority and give them something often never seen in health care, hope. I thank you again for this scholarship as I will use this money to strive toward my goal as it will be a long and treacherous path in my pursuit towards a better tomorrow.

Sincerely,  
Gary Carter
